- Total online orders increased by 8.5% to 881,000 orders

#### **Management Commentary**

"Our first quarter was highlighted by the continued strength of our private label business, which realized double-digit year-over-year growth for the ninth consecutive quarter," said Shane Evangelist, CEO of U.S. Auto Parts. "The higher-margin nature of this business, coupled with our continued execution of strategic pricing initiatives and freight efficiencies, enabled us to generate our strongest quarter of net income since 2010."

#### First Quarter 2016 Financial Results

Net sales in the first quarter of 2016 increased 6% to \$80.7 million compared to \$76.3 million in the year-ago quarter. The increase was largely driven by an 11% increase in online marketplace sales to \$21.3 million, as well as a 5% increase in e-commerce sales to \$50.9 million.

Gross profit in the first quarter of 2016 increased 15% to \$24.5 million compared to \$21.4 million in the year-ago quarter. As a percentage of net sales, gross profit increased 230 basis points to 30.4% compared to 28.1%. The increase in gross margin was primarily driven by a higher mix of private label sales, which were 67% of net sales compared to 64% in the year-ago quarter. The increase was also driven by strategic pricing initiatives and freight efficiencies.

Total operating expenses in the first quarter were \$22.6 million compared to \$20.7 million in the year-ago quarter. As a percentage of net sales, operating expenses increased to 28.0% compared to 27.1%. The increase was primarily the result of increased fulfillment costs and marketing spend.

Adjusted EBITDA in the first quarter of 2016 increased 52% to \$4.3 million compared to \$2.9 million in the year-ago quarter. As a percentage of net sales, adjusted EBITDA increased 170 basis points to 5.4% compared to 3.7%. The significant increase was driven by the aforementioned improvements in gross margin, partially offset by the aforementioned increases in operating expenses.

Net income in the first quarter increased 8x to \$1.5 million, or \$0.03 per diluted share, compared to net income of \$0.2 million, or \$0.00 per diluted share in the year-ago quarter.

At April 2, 2016, cash and cash equivalents totaled \$1.3 million compared to \$1.5 million at January 2, 2016. Total debt decreased to \$3.0 million from \$11.8 million at January 2, 2016.

#### **Non-GAAP Financial Measures**

Regulation G, and other provisions of the Securities Exchange Act of 1934, as amended, define and prescribe the conditions for use of certain non-GAAP financial information. We provide "Adjusted EBITDA," which is a non-GAAP financial measure. Adjusted EBITDA consists of net income before (a) interest expense, net; (b) income tax provision; (c) depreciation and amortization expense; (d) amortization of intangible assets; and (e) share-based compensation expense.

The Company believes that this non-GAAP financial measure provides important supplemental information to management and investors. This non-GAAP financial measures reflect an additional way of viewing aspects of the Company's operations that, when viewed with the GAAP results and the accompanying reconciliation to corresponding GAAP financial measures, provides a more complete understanding of factors and trends affecting the Company's business and results of operations.

Management uses Adjusted EBITDA as one measure of the Company's operating performance because it assists in comparing the Company's operating performance on a consistent basis by removing the impact of stock compensation expense, as well as items that are not expected to be recurring. Internally, this non-GAAP measure is also used by management for planning purposes, including the preparation of internal budgets; for allocating resources to enhance financial performance; and for evaluating the effectiveness of operational strategies. The Company also believes that analysts and investors use Adjusted EBITDA as a supplemental measure to evaluate the ongoing operations of companies in our industry.

This non-GAAP financial measure is used in addition to and in conjunction with results presented in accordance with GAAP and should not be relied upon to the exclusion of GAAP financial measures. Management strongly encourages investors to review the Company's consolidated financial statements in their entirety and to not rely on any single financial measure. Because non-GAAP financial measures are not standardized, it may not be possible to compare these financial measures with other companies' non-GAAP financial measures having the same or similar names. In addition, the Company expects to continue to incur expenses similar to the non-GAAP adjustments described above, and exclusion of these items from the Company's non-GAAP measures should not be construed as an inference that these costs are unusual, infrequent or non-recurring.
